NORTH BENNINGTON

Bessie May White.

Miss Bessie May White, after a ling-
ering illness of several years dura-
tion, entered into rest Saturday
morning, August 19. Miss White, who
was the only child of Mr. and Mrs.
Frank White of North Bennington,
was born in Bennington 26 years ago
last February, and has resided in the
town practically all her life. During
her long illness, all that the best
physicians and loving hands could do,
was of no avail, and her bravery
through it all has been marvelous.
Her beautiful disposition enabled her
to bear suffering with a patience that
never wavered. She was a member
of the Episcopal church of Bennington
and the burial service of that church
was used at the funeral at her late
home on Main street, Monday after-
noon at 2 o'clock. Rev. George J.
Sturgis conducted the service assisted
by Howard James. The burial was in
the Hinsdillville cemetery. The bear-
ers were all cousins of the deceased,
Hiram, Paul, Lynn and Waldo White
sons of E. H. White of North Benning-
ton and Roy and Homer White sons of
William White of Hoosick. Among
those present from out of town were
Miss Elsie Wells of Holyoke, Mass.,
William White and family of Hoosick,
and George White and family of Hoosick
Falls. Mr. and Mrs. White are
deeply grateful to the many friends
and neighbors and to the employees
of the Bennington and Hoosick Falls
Division of the Berkshire street rail-
way, who expressed their sympathy in
beautiful floral tributes. Every act
of kindness to their dear daughter dur-
ing the dark days through which they
have all been called upon to pass,
has been appreciated by the parents
and will be treasured with their loving
memories of Bessie.

Hudson Now Holds World's Greatest Hill-Climbing Record Makes Fastest Time Up Pike's Peak

No hill-climb or mountain test in the world equals that imposed on motor cars that race to the summit of Pike's Peak. A Hudson Super-Six Special made the best time of more than 20 contestants to the top of America's most famous mountain, over the longest, steepest, highest travelable road in the world.

The start, at a mile and three-quar-
ters above the sea, is higher by far
than is the altitude of the finishing
line in most hill-climbs.

The finishing point of Pike's Peak
is almost two and three-quarters miles
above sea level. In the twelve and a
fraction miles of the course there are
60 turns, and the rise is almost one
mile high. There is no place where
the car is not climbing.

The high altitude affects the power
efficiency of the motor and water boils
at such low temperature that motors
cannot be cooled as they are in lower
levels.

Hudson Fastest Time

The Hudson climbed up this wind-
ing steep road to the "Top of the
World" in 18 minutes, 24 seconds. Its
time was 2 1-2 minutes faster than the
next fastest car.

This feat now gives to Hudson prac-
tically every worth-while record. In
speed—when 102.3 miles an hour was
attained at Daytona; in endurance—
when 1819 miles were covered in 24
hours, with a stock Super-Six chassis
we established marks not likely soon
to be equalled.
